- Please review the Event SR carefully. There is an amended Minimum Pit Stop Time noted.

GARAGE & PIT ASSIGNMENTS AND TECH APPOINTMENTS

- Will be posted on the Event Page of the Competitor site, when finalized <https://competitors.imsa.com/092018/2019-imsa-prototype-challenge-event-information>
- Included in these notes are the current drafts of the Garage Assignments and Pit Assignments. This is for **reference only** as these tend to change once we get much closer to the event. The Competitor site is the best place for current docs such as these.

PIT LANE:

- Set Up begins at 4:30 on Thursday. While it's important that your team have the space needed during your on-track sessions please remember that this event is shared with the WeatherTech and Michelin Pilot Championships, so please be courteous in terms of pit box space.
- If you don't have a sharing relationship (SSR 20.5.5) with a WeatherTech team, this would be a good time to establish one for the season.

MOTORIZED PIT EQUIPMENT:

- Two-wheeled equipment is NOT allowed in the paddock or pit lane areas per DIS Regulations. Consult the SR as related to golf carts and tuggers.

LOAD OUT:

- Transporters must not move in the paddock until the times listed on the official schedule
