IMSA TECHNICAL BULLETIN IPC Revision 2 #18-03

To: All IMSA Prototype Challenge Participants
From: IMSA Competition
Date: June 30, 2018
Re: Permitted Electronic Equipment

Please find the following updates to the IPC-P3 Technical Regulations as follows:

9.18.2. Data Logger

- a. IMSA reserves the right to download and/or view all logged data at any time.
- b. Entrants may install additional electronics equipment as follows:
 - i. Stand-alone cameras (Go-Pro type)
 - ii. "Connected" cameras (VBox type)
 - iii. Pit lane timers
- c. If any such equipment uses a GPS antenna it must be mounted no less than 75 cm away from the mandatory GPS antenna
- d. Any such equipment must be correctly mounted and in place for pre-event scrutineering
- e. Any electronic device liable to interfere with proper function of the on-board electronics (including but not limited to ECU, Data Logger, ADR, GPS antenna) is forbidden
- f. IMSA may at any time ask for removal of any electronic equipment if it is deemed to pose a safety problem or if it interferes with the mandatory electronic equipment.
