Re: Sebring 12 Hour Live Refueling Clarification

---

To clarify potentially contradictory language of section 37 of the SR of the 66<sup>th</sup> Annual Mobil 1 Twelve Hours of Sebring regarding refueling and the language of Article 37.3.2. of the 2018 IMSA Sporting Regulations and SSR:

Live refueling is permitted both during the night practice and during the warm up (and the remainder of the race day activities). Proper attire is required as specified in both documents above.
